

ELECTROPHORESIS AUTOMATED SYSTEM

miniLITE

The smaller size for automation in clinical electrophoresis

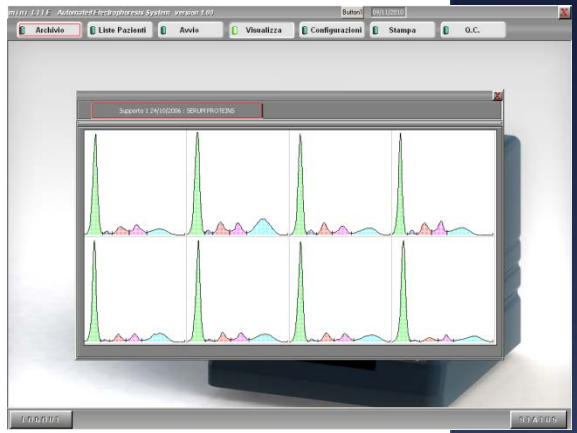

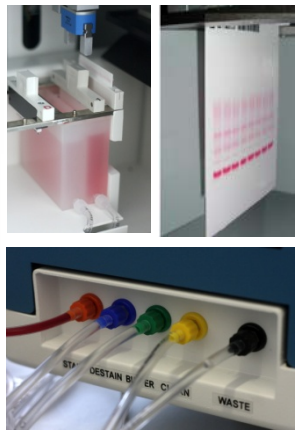

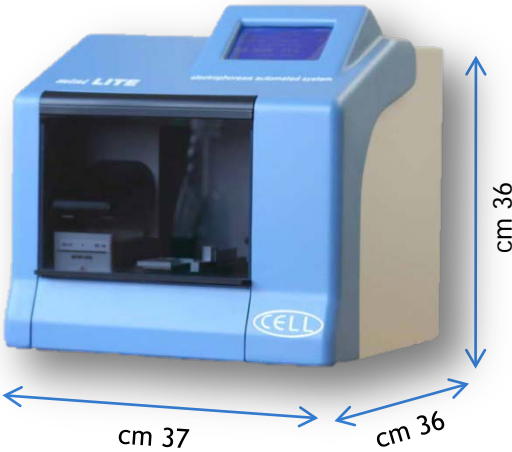

a Start project
diagnostic division

NEW ELECTROPHORESIS AUTOMATED SYSTEM

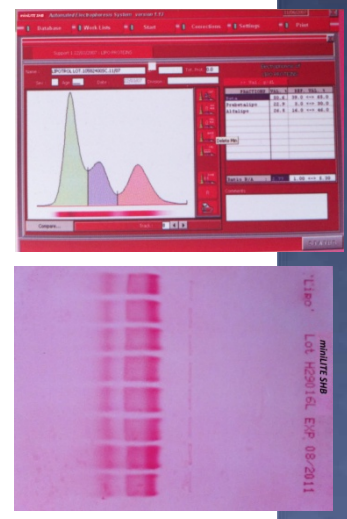

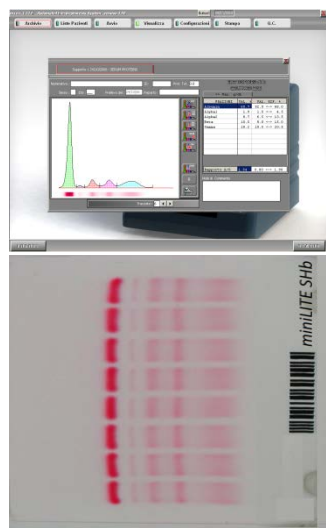

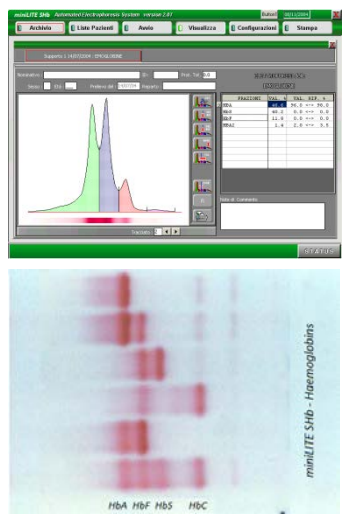

small in dimension – **great** in automation and reliability

Fully automated - from reagents management to automated fast scanning – suitable for 4/8 samples

Versatile – allows to perform the most spread techniques: Serum Proteins, Haemoglobins, Lipoproteins

Complete – software provides archive species management (veterinary) and statistic programs

CELL – Cellulose Acetate supports balanced Kits and applicative support

CELL assures the best quality and support in Electrophoresis
